

## DEALERS' ACCESSORY BULLETIN

### XLCH TACHOMETER KIT

We now have available a very accurate Tachometer, as illustrated here, registering from 500 to 8000 R.P.M.. Its positive response, due to simplicity of drive makes this tachometer reliable and easy to read.

92050-62 Tachometer Kit -- List - \$41.00

Using this kit, the tachometer can be mounted on XLCH motorcycles having the latest magneto with the tachometer drive opening. (XLCH's starting with motor number 62XLCH 4044 have this new magneto).
